

GROUNDWARE®

MOBILE LT

INTEGRATED SOLUTION, READY TO USE IN MINUTES

- 4'x8' rugged compact trailer
- 3,500 lb. axle-less axles with 22" clearance
- 30', 5-stage telescoping mast
- 450W of solar power
- Auto-start generator
- Dual-carrier modem (AT&T® and Verizon®)
- 2.4 GHz and 5 GHz 802.11 a/b/g/n
- Satellite communications capable (optional)
- Onboard Windows® 10 computer
- Live power information provided on user dashboard
- Integrated GroundAware sensors
- Integrated video surveillance cameras (optional)

GroundAware® Mobile LT is a fully integrated surveillance platform with the mounting, communications, and power capabilities needed for reliable, standalone operations of GroundAware® Surveillance Sensors, cameras, and other surveillance solutions.

Using standard vehicles and hitches, this versatile mobile platform can be easily moved where and when needed to monitor areas of concern to security and safety stakeholders. It is ideal for addressing "hotspots" due to theft, vandalism, or other activities.

GroundAware Mobile LT can be set up in minutes, with all resources needed to operate in even the most remote locations.
